Scott Sloan

Web Developer

Scott holds a Bachelor of Science degree in Computer Science from the University of Wisconsin - Superior. Within the field of computer science, Scott has active interests in developing web application frameworks and software for hobby robotic projects. On those glorious summer days, he can be found outside exploring the outdoors and an occasional antique shop, all the while thinking about the next camping and backpacking trip with his wife and family. Yet during those cold winters, he is seldom far from a good mocha and an even better book.
